

JOHN DEERE

KOENIG

TECHNICIAN PROGRAM

Build a Rewarding & Long-Lasting Career

Power Up with a John Deere Degree

A GREAT OPPORTUNITY

Koenig Equipment and John Deere have partnered together to teach students the technical theory and skills needed to work with John Deere equipment under realistic dealership conditions. With a two-year associate's degree from Owens Community College or Vincennes University, you'll learn how to provide parts solutions as well as troubleshoot, service, repair, and rebuild the equipment that keeps John Deere customers running strong. You will gain the skills and experience necessary to become an essential member of a John Deere dealership team. Our staff is the best in the industry.

CLASSROOM & LAB

You will receive a combination of classroom instruction and hands-on laboratory instruction in the technical details required to become a Koenig Equipment Parts & Service Professional with John Deere Certification.

INTERNSHIP EXPERIENCE

You will also work with us as part of the curriculum - and get paid for it. This is where all your time in class comes together. At Koenig, you will learn from seasoned Parts and Service Professionals and deal with customers who need their equipment fixed, right now. You'll put all you know about John Deere maintenance, diagnostics and repairs to work. You'll learn you can really fix a machine with a laptop and a wrench. And, you'll learn skills to work with our customers to provide cost-effective and time-saving parts solutions.

THE REWARD

Upon graduating from the program, you will earn John Deere Certification. Successful graduates will have the opportunity to work full-time at Koenig Equipment with competitive pay, comprehensive benefits, and a positive work environment. Take pride in knowing that your efforts help meet a growing need by supporting Customers who are essential in feeding the world. Additionally, you may qualify for Tuition Reimbursement and issuance of a toolbox and tools valued at over \$3,000.
